# GI-BMP Instructor Update – October 3, 2014
## Subject:  Another Pesticide module update; advice for video glitches

### NEW 9/2014 Pesticide module replaces 8/2014 version released last month

- The 9/2014 module version contains corrections to the FDACS Bureau name, reflecting the Department's recent reorganization.  The **new Bureau of Licensing and Enforcement** now administers pesticide and fertilizer licenses for both Chapter 482 and Chapter 487.

- Modules, speaker notes and handouts have been updated for all languages.

- *Please download and begin using the new 9/2014 Pesticide module immediately.*

- If you missed the previous email, please read the Sept. 8 update here for several important program announcements.

### Solving problems with embedded videos in PowerPoint

- A few people have reported problems playing the embedded videos.  **Be sure to test the PowerPoint videos with the equipment you plan to use prior to your class.**  The slides with videos are listed below.

    | | |
    |---|---|
    | Module 1, Slide 16 | Module 5, Slide 37 |
    | Module 3, Slide 21 | Module 6, Slides 36, 40 |
    | Module 4, Slides 25, 32 | |

- **Having trouble getting the videos to play?**  The tips below may help.
    - Download the PowerPoint Show files to the computer you are using rather than playing the files via internet, wireless or network connections.
    - You may need to click the slide to start the video playing.
    - Workarounds if the video still doesn't play or you see a "codec not found" error:
        - Open Windows Media Player before opening the PowerPoint (this can help Windows "find" the codec – you don't have to keep it open)
        - Copy the PowerPoint files to a USB flash drive and play from there.
    - If the workarounds don't work, make sure all updates for Windows and Media Player have been installed on the computer.

- We will continue working to address video problems.  Please let us know if you experience these or other issues with the presentations, or if you have other suggestions to resolve issues.

### Where to download materials: Instructor Resources Website

- All GI-BMP materials are available for download from the GI-BMP Instructor Resources website:  http://ffl.ifas.ufl.edu/gibmp_instructor.html

- *TIP:  The download page shows the "last updated" date for each item.  Please be sure you are using the most recent version of the training materials and administrative forms!*
